

DONATION GUIDELINES

***Please note that Safety is our #1 priority. This also extends to your personal property. All items are subject to visual inspection. Our on-site staff does reserve the right to refuse any donation if they identify it to be a risk to safety, due to spatial restrictions or due to condition. (Any dumpster or waste cost would directly deter from the services we provide)** On donation pick ups, you can help us eliminate risk by ensuring that your donation is easily accessible and must be located in a garage or outdoors for pick-up. Donations from smoking or pet households are more likely to be denied on-site.
